

Custom Design

In addition to the Triple Axle Dolly, Freedom Manufacturing is pleased to offer tandem axle and single axle dollies with customizable drawbar lengths specific to your application and trailer length setup.

Full fender kits can be retrofitted to be installed on existing dollies.

Let us make your dreams become a reality with our in-house design and 3D computer aided design (CAD) capabilities.

Triple Axle Dolly

Specializing in custom design and
manufacturing of heavy equipment.

Triple Axle Dolly

Engineered to handle the toughest agriculture, industrial, and construction environments, Freedom Manufacturing's Triple Axle Dolly is built to help you haul more and keep your truck/trailer setup looking better.

Industry's toughest full rubber fenders are rigidly mounted, will not wear through, and helps keep your trailers clean. Aluminum diamond-plate deck covers and aluminum rims add style and reduce weight.

Standard Specifications
